

Saver's Credit Alliance Members

We support strengthening the Saver's Credit to enable millions of Americans to receive an additional incentive to build their savings and enhance their financial security. We support expanding and improving the Saver's Credit by providing a flat 50% match on deposits into qualified savings accounts up to \$500/\$1,000 per year for a single/joint filer; automatically depositing this match directly into a designated account through IRS Form 8888; and, extending this benefit to households earning less than \$65,000.
